

ADITYA PARTHASARATHY

Nanganallur, Chennai 600061 | 8122907520 | adityapartha1@gmail.com | [Portfolio](#)

PROFILE

Computer Science undergraduate and full-stack developer with hands-on UI/UX design experience. Currently building a ride-hailing mobile app end-to-end at an early-stage startup, combining front-to-back engineering with a strong design sensibility. Adaptable, detail-oriented, and driven to turn ideas into working, user-centered products.

EXPERIENCE

Full Stack Intern — ISMO Bio Photonics Sep 2026 – Present
IITM Research Park, Chennai, India

- Building the company's main website to showcase ISMO Bio Photonics' complete range of products.
- Developing across the front end and back end, turning product information into a clear, user-friendly web experience.

Full Stack App Developer — StrawLabs June 2026 – Present
Chennai, India (Startup)

- Building Drivo, an electric ride-hailing mobile app, end-to-end as an early engineering hire at a newly founded startup.
- Developing both the front end and back end of the product, including live location tracking and ride-matching functionality.
- Working directly with the founders in a fast-moving environment, owning individual features from design through deployment.

UI/UX Intern — Retech Technologies Jul 2025 – Aug 2025
Chennai, India

- Designed user-friendly interfaces and wireframes, contributing directly to product screens and interaction flows.
- Improved user experience flows by identifying friction points and iterating on designs based on feedback.
- Collaborated with developers and stakeholders to translate design concepts into functional digital solutions.

PROJECTS

- TrackMyRide — College bus tracking website providing live bus location and ETA lookup for students; built with a web front end and a real-time location backend.
- CampusOS — Full-stack campus management platform designed to bring student and campus services into a single digital system.
- Smart Attendance System — Automated attendance solution built to replace manual roll-call, using an automated recognition/scanning workflow.
- Car Rental System — Database-backed application modeling vehicle inventory, bookings, and billing for a car rental business.
- Mobile Phone Usage Statistics Analysis — Data analysis project exploring smartphone usage patterns and trends from a usage dataset.

SKILLS

Design & Prototyping: Figma, Adobe XD, wireframing, user flows
Development: JavaScript, React, Node.js, mobile app development, Git/GitHub
Core Strengths: Creative & Visual Design, Communication, Problem Solving, Leadership

EDUCATION

B.E./B.Tech, Computer Science and Engineering 2024 – Present
Rajalakshmi Institute of Technology, Chennai

Higher Secondary (12th Standard) 2023 – 2024
Prince Srivari
